

# CHANGING LEARNING ENVIRONMENTS

A class focused on helping you prepare for the transition back to in-person learning.

As we move beyond the past year's disruption to planning our return to school, we want children to be ready.

Parents & teachers share many of the same concerns:

- Have children fallen behind academically & how do we get them back on track?
- What can we do to reduce the social-emotional impact of being away from a classroom for a year?
- How will they respond to all of the safety measures and the school experience being different?
- What if they have anxiety and fears about returning?

Tools, resources, & discussions to get you ready for whatever comes next.

## UNDERSTANDING CHILDREN SERIES

### ONLINE CLASS

class starts April 5, 2021

\$85 tuition/ 5 credits

(plus \$35 technology fee)

Instructors Beth Goss & Mara Mulcahy
